**UPDATE: Expiration Dating Extensions to 24 Months – Hurricane Impact on Baxter’s North Cove, NC Manufacturing Facility**

Dear Valued Customer:

In follow-up to Baxter’s communications regarding the impact of Hurricane Helene on our North Cove, NC manufacturing facility, Baxter is now authorized by the FDA to extend the use dates of the Product Codes in Table 1 attached to this letter to provide a 24-month expiration from the date of manufacture without relabeling the products. The Extended Expiration Date is based on Baxter’s submission to the FDA including container closure integrity data, container functional performance data, and an analysis of product weight loss profiles for the product codes included in Table 1.

Baxter products typically have varied expiration dates between 12 and 24 months. As indicated above, the **Extended Expiration Date is for a total of 24 months from the date of manufacture for the Product Codes in Table 1.**

To calculate the Extended Expiration Date, please utilize the labeled expiration date on the primary label and add the appropriate months indicated in Table 1 for the corresponding Product Code. End-users are advised to use product immediately upon removal from over pouch per product labeling.

You also can utilize the **Extended Expiration Date Searchable PDF** to find the Extended Expiration Date by searching your Baxter Product Code or desired Lot/Serial Number. The PDF can be found at <https://meded.baxter.com/hurricane-helene-clinical-resources>.

We understand the critical importance of supply continuity and are committed to continuing transparent and proactive communications with you. Regular updates on this situation are posted to Baxter’s website at [Hurricane Helene Updates | Baxter](#).

For medical information, support or questions regarding conservation strategies, please contact [MedInfo@Baxter.com](mailto:MedInfo@Baxter.com), call 1-800-933-0303, or visit [Hurricane Helene Conservation and Medical Information Resources | Baxter](#), where you will also find this letter and a full listing of applicable product codes, lot/serial numbers and expiration dates.

Thank you for your patience and partnership as we navigate this difficult situation.

Sincerely,

Jason Bennett  
Senior Director, Quality  
Baxter Healthcare Corporation

**Baxter Center for Service: 1-888-229-0001**

**Table 1 - Full List of Product Codes with Extended Expiration Dates to 24 months from the date of manufacture**

**NOTE: The Extended Expiration Date applies only to the Product Codes listed in Table 1 that were manufactured prior to September 30, 2024.**

Applicable to product that is used immediately upon removal from the over pouch.
