

February 1, 2025

Dear Valued Customer:

Nestlé Health Science is committed to providing high-quality, science-based nutrition formulas. In the spirit of continuous improvement, we would like to share the following updates to our product portfolio.

## Peptamen® Intense VHP – Ingredient Update

In an effort to simplify ingredients, we are writing to provide you with an update regarding the fat sources in the Peptamen® Intense VHP formula.

We are changing the fat source by removing safflower oil from our fat blend, moving to a blend of medium chain triglycerides (MCT oil), soybean oil and refined fish oil. There is no change to the total fat level within the formula.

This upcoming change was made with careful consideration of nutritional needs and aligns with Nestlé’s commitment to provide a wide array of high-quality options to support your patients. In addition, we want to assure you that this transition is a proactive step to help avoid future supply challenges and to provide you with a more reliable and efficient product supply. The product will continue to deliver the same nutritional support as the prior formula. The total levels of protein, fat, and carbohydrates will not change. The product continues to meet 100% of the DRIs\* for 23 key vitamins and minerals within 1500 mL.

\*Dietary Reference Intakes (DRIs) represent the Recommended Dietary Allowances (RDAs) value unless unavailable, in which case Adequate Intake (AI) value was used.

What Is Changing?	What Is NOT Changing?
<ul style="list-style-type: none"> <li>Fat ingredient change to blend of MCT oil, soybean oil and fish oil</li> <li>Zinc content reduces from 3.5 mg to 2.5 mg per 250 mL serving</li> </ul>	<ul style="list-style-type: none"> <li>Total macronutrient values</li> <li>Number of micronutrients meeting 100% of the DRIs (including Zinc)</li> <li>Ingredients other than the fat source</li> <li>Pricing</li> <li>Product Codes</li> <li>mLs (volume) per container</li> <li>Case count and configuration</li> </ul>

**Product codes will remain the same.** The new formula will flow into the market as inventories of the old formula are depleted. The estimated in-market dates are dependent on Nestlé Health Science and distributors’ current inventory supply and are subject to change.

Product Description No Changes	Product Code	Case UPC/GTIN Code	Est. In-Market Date
	No Code Changes		
PEPTAMEN® INTENSE VHP, Unflavored 24 x 250 mL carton	4390043271	00043900432717	May 2025
PEPTAMEN® INTENSE VHP, SpikeRight® PLUS 6 x 1000 mL UltraPak® bags	4390049322	00043900493220	July 2025

## Alfamino® Infant - Ingredient Update

Alfamino® Infant amino acid-based hypoallergenic infant formula is undergoing a minor ingredient statement update. Due to a change in the supplier of DHA oil, the source of DHA in Alfamino® Infant will now be reflected as SCHIZOCHYTRIUM oil (formerly C. COHNII oil) in the ingredient statement. The overall nutrient profile of the formula will remain the same with the new oil source.

It is important to note that only the DHA oil source is changing. **Product codes will remain the same.** The new formula will flow into the market as inventories of the old formula are depleted. The estimated in-market dates are dependent on Nestlé Health Science and distributors' current inventory supply and are subject to change.

***There are no changes to the ingredient statements of Alfamino® Junior Unflavored or Alfamino® Junior Vanilla pediatric formulas.***

Product Description No Changes	Product Code	Case UPC/GTIN Code	Est. In-Market Date
	No Code Changes		
Alfamino® Infant Unflavored 6 x 400 g	1303478822	07613034788221	April 2025

## Product Discontinuations to Enable Improved Portfolio Supply

After careful consideration and evaluation, we want to inform you that we will be discontinuing the following products. Through these discontinuations we are enabling improved manufacturing efficiencies to help support ensuring supply of our full portfolio of products. The below chart outlines the specific SKUs being discontinued. We've also identified alternative options that may be suitable to the nutritional needs of your patients which can be found on the attached product cross reference.

Discontinued Product Description	Discontinued Product Code	Discontinued Case UPC/GTIN Code	Est. Inventory Depletion Date*
VIVONEX® RTF, SpikeRight® PLUS 6 x 1000mL UltraPak® bags	36280100	10043900362806	May 2025
COMPLETE® STANDARD 1.4 Cal, SpikeRight® PLUS 6 x 1000mL UltraPak® bags	4390034927	00043900349275	May 2025
PEPTAMEN JUNIOR®, SpikeRight® PLUS 6 x 1000mL UltraPak® bags	9871677360	00798716773607	May 2025
PEPTAMEN JUNIOR® PHGG, Vanilla 24 x 250mL carton	4390090484	00043900904849	May 2025
PEPTAMEN® with PREBIO1™, SpikeRight® PLUS 6 x 1000mL UltraPak® bags	9871622804	10798716228043	May 2025
GLUTASOLVE®, Unflavored 56 x 22.5g packets	28330000	10043900283309	May 2025
MCT OIL®, Unflavored 6 x 1 quart glass bottles	03651300	00041679365137	May 2025

*\*The inventory depletion date is estimated and dependent on the inventory levels of Nestlé Health Science and your Distributor and is subject to change.*

We understand that the discontinuation of these products impacts both you and your customers and we apologize for any inconvenience this may cause. The decision to discontinue these items was not made lightly. We want to assure you that we remain committed to providing high-quality nutritional products that meet the diverse needs of our customers. While these specific products will no longer be available, we encourage you to explore our suggested replacement options that may be suitable for your requirements.

Should you have any questions or require additional information, please work with your Nestlé representative, or call our Consumer Service Center at 1-800-422-2752 that is staffed with Registered Dietitian Nutritionists (RDN). Additional product information and support tools can be found on our Medical Hub at [www.nestlemedicalhub.com](http://www.nestlemedicalhub.com). If ordering through one of our distributor partners, please work directly with your distributor representative to access product alternatives. Thank you for your continued business, and we appreciate your understanding and look forward to serving you with our improved products!

Sincerely,

Felicia Belle  
Vice President, Head of Sales  
Nestlé Health Science, US
