

EDUCATION AND ACCREDITATION INFORMATION – ASPEN SELF-ASSESSMENT PROGRAM

Course Goal and Target Audience:

ASPEN's Self-Assessment online modules are designed for members of the interprofessional healthcare team seeking to assess their knowledge of nutrition and metabolic support both in clinical practice and research settings. Committed to impacting patient wellness, ASPEN provides this interactive educational tool to enhance healthcare team members' understanding of current evidence-based nutrition and metabolic support.

Objectives:

- Identify areas of knowledge in nutrition and metabolic support that require further study.
- Refine current clinical knowledge and healthcare team practice to reflect recent advances in nutrition support.
- Develop skills in interpreting medical literature.
- Develop and integrate analytical thinking skills to improve clinical practice for the healthcare team.
- Increase proficiency in utilizing online resources and taking computerized examinations.

Successful Completion: To obtain credit, course participants must complete an entire online module, attain a 60% correct score on the post-assessment and complete a program evaluation. All credit must be claimed by the expiration date posted. Those who do not claim credit by the posted expiration date forfeit credit for those modules.

ASPEN submits data as required to the CPE Monitor for pharmacists. ASPEN submits physician-earned CME credit into Pars. ASPEN does not submit data to any other credentialing organization. Pharmacists and physicians, please note that ASPEN will upload earned CE credit into the appropriate system within the required timeframe. Any credit not claimed by the deadline will not be entered. Please provide your correct information when completing your evaluation and claiming CE credit. ASPEN submits only the information that is entered by the pharmacist or physician when credit is claimed and is not responsible for following up to obtain any corrected information to ensure an error-free submission.
